

- Power Service is a well-known brand that produces fuel additives for diesel and gasoline engines.
- Power Service fuel additives are designed to enhance fuel performance, improve efficiency, and address specific engine issues.
- Power Service fuel additives are widely used in various industries, including transportation, agriculture, and construction.

- Fleetguard offers a comprehensive range of filters, including air, oil, fuel, hydraulic, and coolant filters.
- Fleetguard filters are engineered to meet or exceed industry standards for performance and reliability.
- Fleetguard is synonymous with quality, and its filters are trusted by customers worldwide.

- The Murphy brand represents over 80 years of reliable innovation for critical engine monitoring and control.
- Murphy offers a full line of control panels for a wide range of applications — from engines and motors, to pumps and compressors.

- Racor filters are produced by Parker Hannifin Corporation, a global leader in motion and control technologies.
- Racor filters are widely used in marine, automotive, industrial, and other applications.
- Racor filters are available in various configurations to suit different engine types and sizes.

PARTS AVAILABILITY UNEQUALED.

Tradewinds Power Corp provides complete unsurpassed aftermarket parts support! Our inventory of over 30,000 items enables an unequalled first-fill rate when shipping parts the same day worldwide.

Friendly, knowledgeable, and professional parts personnel are here to assist you in identifying the exact part you require.

In addition to Perkins, John Deere, Hyundai Infracore, and PSI engine parts, we stock a full line of Donaldson air filters, Racor fuel filters, Maxiforce diesel engine parts, Goodyear belts and pulleys, WPT Power PTO clutches, Power Services diesel additives, Fleetguard filters, Murphy controls, and many other brands, enabling us to be your one-stop-shop for all your replacement parts needs.

Our reputation for carrying such a comprehensive inventory is one of the reasons demand for our parts is so strong.

- Tradewinds provides a comprehensive range of genuine Perkins engine parts to support their diesel and gas engines.
- Manufactured using the highest quality materials, to the latest specification, and will be supported by a Perkins 12-month warranty.
- Using authentic Perkins parts helps maintain the warranty and ensures the longevity of the engine.

- Tradewinds genuine John Deere engine parts are designed to meet strict quality and performance standards.
- John Deere engine parts cover various components, including filters, gaskets, pistons, injectors, and more.
- Authentic John Deere parts undergo stringent testing to meet or exceed industry specifications.

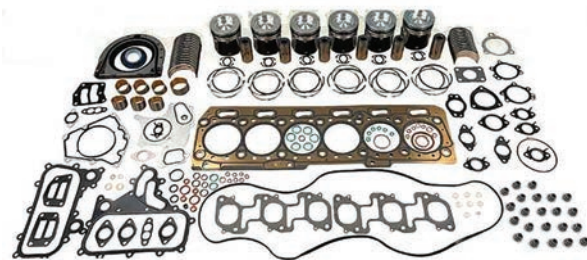

- Hyundai Infracore engine parts cover a broad spectrum of components.
- They are used in various applications, including automotive, industrial, aerospace, and more.
- Hyundai Infracore's genuine engine parts contribute significantly to the overall efficiency and reliability of their engines.

- PSI understands that the success of their customers' business relies on the efficiency and reliability of their engines.
- PSI offer a comprehensive range of genuine, high-quality parts to keep your operations running smoothly with minimal downtime and maximum productivity.

- Donaldson filters are renowned in the filtration industry for their high-quality and efficiency.
- Donaldson emphasizes advanced filtration technologies to meet the evolving needs of different industries.
- Donaldson filters are known for their durability and reliability in challenging environments.

- Maxiforce specializes in aftermarket replacement parts for diesel engines, including major engine components.
- Maxiforce focuses on providing cost-effective alternatives to OEM parts, catering to various engine makes and models.
- Maxiforce's product line covers a diverse range of diesel engines, offering a comprehensive selection.

- Goodyear is a well-known brand in the automotive industry, producing a range of belts for various applications.
- Goodyear offers a diverse selection of belts, including serpentine belts, timing belts, and V-belts.
- Known for their durability, Goodyear belts are constructed with high-quality materials to withstand demanding conditions.

- WPT Power Corporation specializes in manufacturing mechanical power take-off (PTO) units.
- WPT Power offers a diverse range of PTO models to suit different industrial and commercial needs.
- WPT Power's PTOs play a crucial role in driving hydraulic pumps, generators, compressors, and other auxiliary equipment.
